INTRODUCTION.

This Society published in 1901, as the eighth of its series of Collections, a volume of "Rolls and Lists of Connecticut Men in the Revolution, 1775-1783." As explained in its introduction, the material in that volume supplemented what had already been published in 1889 in the officially issued "Record of Service of Connecticut Men in the War of the Revolution, 1775-1783."

The material herewith issued as the twelfth volume of Collections, with the title Lists and Returns of Connecticut Men in the Revolution, 1775-1783, is intended to supplement what has already been published in the two volumes mentioned above.

The major part of this volume, as its title might indicate, is composed of officially written lists and returns of soldiers who were serving in the Continental regiments of the "Connecticut Line." There are also some rolls of companies in service which had not previously been printed, particularly in 1782 and 1783. Comparatively few new names of soldiers or additional records of service are printed in this volume. Its chief value will be found to consist in the addition in the case of a great majority of the soldiers, of the name of the town from which the soldier came. This will supply much sought for information, and in many cases will doubtless serve to identify the soldier.

Many of the statements made in the introduction to the volume of Rolls and Lists apply equally well to this volume. A part of the copy was made by Mr. Thomas, and all of the cards for the index were written by Miss Gay. All comparison of index cards and reading of proof of both text and index has been done by the editor. Much the same method has been used in indexing as in the former volume. All surnames have been indexed exactly as

they appear in the text; but in the case of Christian names, where both a correct and an incorrect spelling of the same name appeared, both are indexed under the correct spelling.

The sources from which the material in this volume has been printed are, with the addition of volume 39 of the Revolutionary War series in the State Library, practically the same as those used in the previous volume of "Rolls and Lists" and enumerated in the introduction to that volume.

A word of explanation seems advisable regarding the rolls of Col. Samuel B. Webb's regiment for 1782 and 1783, which are found in volume 39 of the Revolutionary War series, and are here printed on pages 303-344. These rolls were formerly in the Comptroller's office and have but recently been transferred to the State Library, where they have been arranged and bound. They are not original rolls of the period which they represent, but are comparatively modern copies, perhaps made about 1843. The source from which they were copied is not now known. The majority of them are written in a free running hand which leaves not a few of the letters in the names poorly formed and doubtful, while many of the names are closely written, owing to the copyist's anxiety to crowd them into the limited space on a certain uniform size of paper. Apparently the copyist was sometimes careless in his writing and set down letters which could not by any possibility be construed as forming a name. Monthly muster rolls of the staff and of the different companies in this regiment for some or all of the months of February, March, May, June, July, September, October 1782, December 1782-January 1783, and February 1783, are preserved in these copies. In this volume only the earliest roll in each year of each of these companies has been printed. The later monthly rolls have been compared with this, and differences, except occasional unimportant variations of spelling, are noted on the printed page. Thus it appears that the name of the same person is found on one roll as Chester Upham and on another as Christopher Upham (page 307), or on one roll as Amos Gustin and on another as Amos Griffin (page 310). Whether or not these differences appeared on the original rolls is a matter for conjecture. In numerous instances a name after having appeared on several successive monthly rolls is dropped from

succeeding rolls without any mention being made of the man's discharge, desertion, or transfer to another company (such as John Gimson, page 311). Such disappearances are noted on the printed page, as well as the occasional appearance of names on later which are not found on earlier rolls (such as David Clark, page 312). By printing the earliest roll and thus noting the differences found on later rolls the wearisome repetition which would have occurred in printing practically the same roll a half dozen times has been avoided.

Much of this volume is made up of official lists which had themselves been copied and compiled from other lists, made up probably by the town's authorities in the absence of the persons named in the lists. In making such a compilation the opportunity for error is great, and not a few of the names as they appear in the lists and are here printed are evident errors. In some instances the true name is very evident, although badly misspelled; but in others not even by the trial of a phonic pronunciation can the real name be guessed.

In printing these documents it has been impossible to avoid some duplication of names and services, but it has been thought better to allow occasional duplication than to run any risk of omission.

ALBERT C. BATES,

Chairman of the Publication Committee,
and Editor of this Volume.

THE SOCIETY'S LIBRARY, DECEMBER 16, 1908.

CONTINENTAL REGIMENTS, 1775.

RETURNS OF MEN IN SERVICE.

[*See Record of Connecticut Men in the Revolution, pages 34-94.*]

[Each of these Returns, sent in to the State authorities from the different towns, is signed by the Selectmen of the town from which it is sent and gives the names of persons resident in that town who had been employed in the Continental service in 1775, and who under a law passed in December of that year were exempted from the payment of certain taxes to the State. Some of the Returns give the number only and not the names of those who had been in service.]

[*State Library, Revolution 30, 1.*]

RETURNS OF MEN IN SERVICE, 1777-1779.

[The Archives relating to the Revolution volume 30, numbers 51-147, consist of returns from the various towns, giving particularly the names of soldiers serving in the Continental Line from these towns whose families had received supplies from the town during the years 1777, 1778, 1779. Many of the returns give, in addition to those whose families had received supplies, the names of other soldiers serving from the respective towns during those years. The names of those whose families had received supplies are carefully checked with a cross, and such names comprise the "Alphabetical List" which forms the first document in the same volume of the Archives, and is printed in this volume beginning on page 21. The names of such soldiers as are not thus checked are here given under their respective towns.]

The foregoing is a true and exact Return of the Soldiers inlisted and draughted from the 4th Brigade of Militia in the State of Connecticut for Continental Service according to the several Regimental Returns that have been made to me. The Term of Service is in many Instances left uncertain and I could not ascertain it because the Regimental Returns were uncertain, specifying it to be 3 Years or dureing the Warr. I am informed and believe that the Men in Many Companies that are engaged in the Carting Service and in the Companies of Artificers make a Part of the Soldiers returned in this Return ; which I suppose to be wrong and where I found a Man's Name entered in any of the Returns as being entered in either of those Branches of the Service I have neglected to enter his Name in this Return. After all there are many others that belong to those Departments that are included as I am well but not Officially informed ; Nor do I think that this Matter can be placed in its proper Light so as to know certainly how Many of them do & how many do not belong to the Battalions raised by this State, unless the General Assembly shall think proper to adopt some particular Method of Examination to ascertain it.

I am indebted to the Authority & Select Men of Newtown for the Materials wherewith to make a Considerable Part of the Return that respects Newtown Soldiers. There are in that Town Three or Four Companies that have no Officers: they have heretofore chosen their Officers, but of Persons so unfriendly that I am informed it has not been thought proper to give them Commissions; And there is at present no Probability that any Officers would be chosen by those Companies, that it would be thought proper to give a Commission to ; as there are so many unfriendly Voters in those Companies, that are under Age and not obliged to take the Oath of Fidelity to qualify them to vote that (as I am informed) they will carry a Vote as they please: hence it comes to pass that we can have little or no Help from those Companies. I hope some Method will be adopted to give them such Officers as the Publick can have Confidence in, and then we may expect them to yield their Proportion toward filling up the Army and not before.

I find several Instances in the foregoing Return where the same Man is returned as a Soldier inlisted in Three or Four Companies in the same Town: and and to which of them he belongs I am not able to determine and so am obliged to let the same Man stand three or Four Times returned, because I don't know to which Company he belongs. And even if I had the Power to put this Matter right these Returns have come in so late that I have had no Time for it.
